Edwards Audio

TT4

edwardsaudio.co.uk

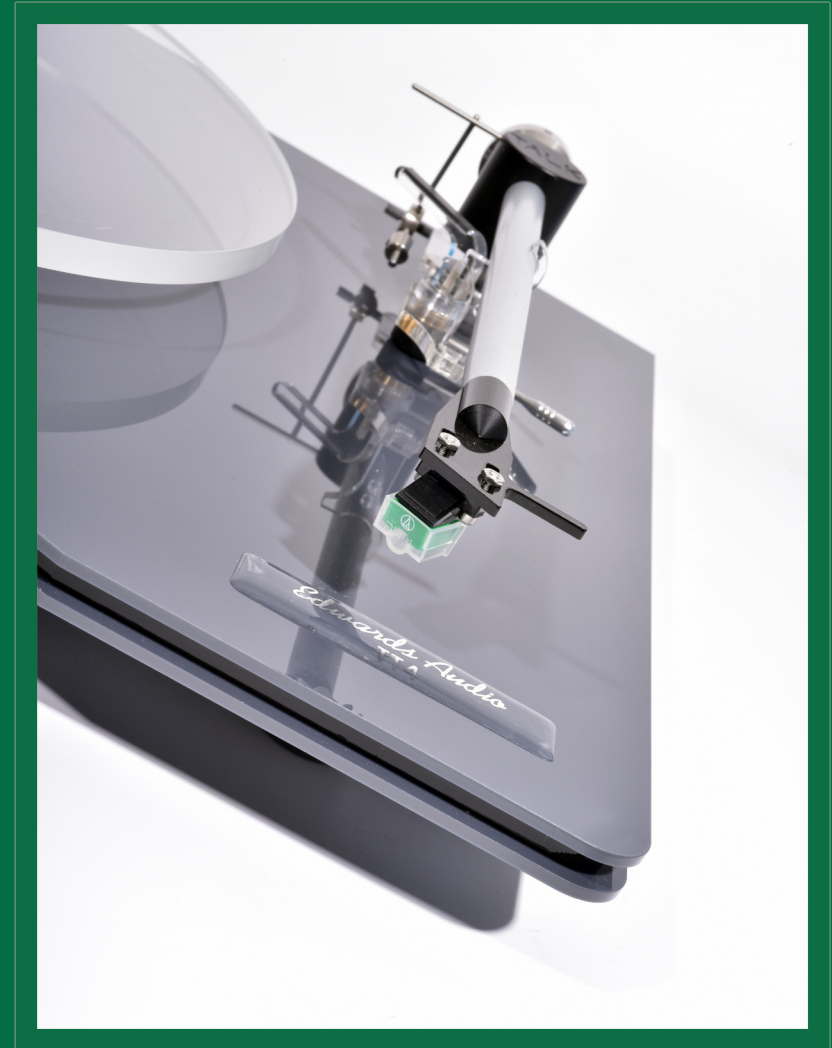

Introduction

With the introduction of the microgroove LP (Long Play) in 1948, engineers have ever since strived to refine and evolve the art of vinyl replay.

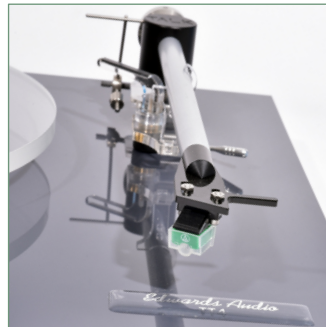

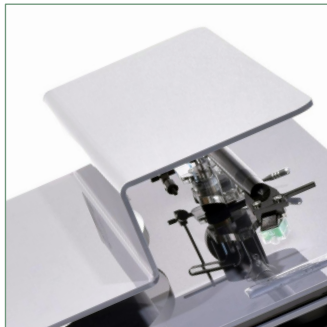

Edwards Audio has likewise evolved, but one constant has remained: its reputation for excellence in musicality and performance.

Resoundingly British by design, Edwards Audio products are made by musicians for the enjoyment of all.

'Listen and believe' to embark on a new musical journey with Edwards Audio.

TT4 Turntable

The Edwards Audio TT4 turntable has an on-trend aesthetic design that combines advances in material technology and manufacturing techniques.

Notably, the TT4 turntable features constrained layer damping technology - a technology that is typically associated with the aerospace industry to dissipate frictional vibrations and noise.

This innovation has been harnessed in the design of the TT4 turntable and as such, delivers resounding performance that exceeds expectation for a turntable at this price point.

Supplied with a fitted Edwards Audio C100 cartridge and a colour matching Z-Type Dust Cover, the TT4 turntable is available in the following colours:

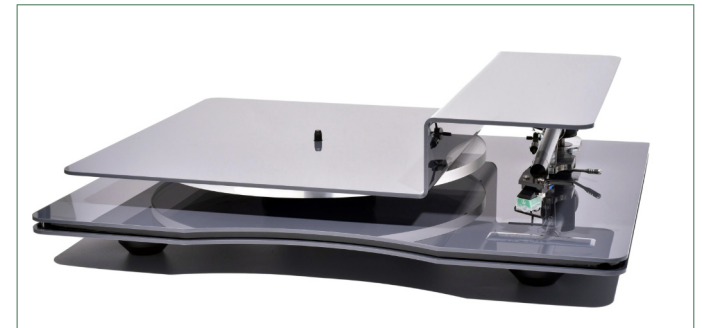

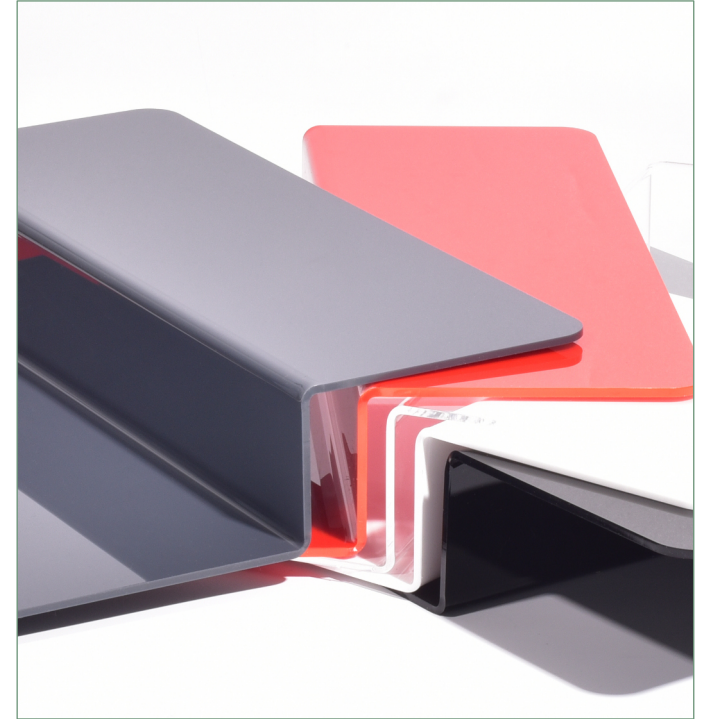

Black, White, Red and Grey.

Z-Type Dust Cover

All Edwards Audio turntables are supplied with a colour matching Z-Type Dust Cover.

This is in a move away from the traditional style turntable lid as these are known to increase the likelihood of acoustic feedback.

Available for purchase separately, in a selection of colours: Black, White, Red and Grey; or a clear finish.

Technical Information

TT4

Speed	33.3 rpm / 45 rpm +/- 3%
Frequency	50Hz or 60Hz (dependant on supply)
Colour / Finish	Black, White, Red, Grey, Clear
Gross dimensions (W x H x L)	530mm x 200mm x 430mm
Net dimensions (W x H x L)	465mm x 113mm x 370mm
Weight (gross / net)	6.7kg / 5.15kg
Power consumption (max)	2.5W
